To all CoderDojo Participants

December 3, 2015

Dear Coders,

CoderDojo Luxembourg is a CodeClub Luxembourg project driven by volunteers to teach coding and technologies to youngsters aged 9 to 18.

For the past year a steady group of 15-20 Kids has gathered in the heart of Luxembourg-City every Thursday no matter the weather.

On the 15th of December 2015 we will have a spontaneous Pop-up CoderDojo at the eskills4jobs conference from 13:00 to 14:30 in Dommeldange at the Parc Hotel Alvisse.

The exact address is:

120, Route d'Echternach
L-1453 Luxembourg

During this pop-up CoderDojo we will be programming small Radio Controlled devices to autonomously steer themselves through an obstacle course.

To register **send an email to** info@corderdojo.lu. We have only **limited** places.

For more information on eskills4jobs visit their official site: http://eskills4jobs.lu/

Sincerely yours,

Steve Clement
CoderDojo Luxembourg Champion
